Claims 5-7 and 12-14 are presented for examination.

The remarks filed on February 9, 2004 have been received and entered.

Claims 5-7 and 12-14 are again rejected under 35 U.S.C. 112 first paragraph for the reasons set forth on page 2 of the office action of October 7, 2003.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. Applicant's specification fails to provide an adequate written description for the compounds covered under the phrase "a retinoid receptor agonist" and the ability of such compounds in treating the bone disorders. Since compound structure and the activity for such pharmaceutical use must be determined from case to case by painstaking experimental study, one of ordinary skill in the art would be burdened with undue experimentation to determine all retinoid receptor agonists which would be capable of achieving the treatment of bone related disorders. The specification provides no guidance, to enable one of ordinary skill in the art to use the invention commensurate in scope, which is broad, and encompass treatment of bone related disorders using any compound, which is a retinoid receptor agonist.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 1614

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
